

WODA W3

High-Performance projectors, designed for applications in underwater and wet/dry environments.

easyglow™
Visual comfort technology to reduce contrast while still achieving maximum light output

Premium Designer Optics as standard for virtually no color-over-angle separation

Stainless-steel fasteners

Static White (4,000 K): Up to 3,600 lm
RGBW w/Royal Blue: Up to 2,200 lm

Premium Luxeon® LEDs for ultimate consistency and reliability

opticlear™
Exceptional optical purity and load strength

220° adjustability for directing light where it is needed the most.

power-sync™
High-speed digital communication technology, that allows addressing and granular control of every luminaire, using only a single cable

microantileach™
Factory installed, 100% water-tight cable entry that blocks moisture from entering the luminaire

cool-drive™
Integrated active thermal management system

24/48 W: underwater environments
24 W only: wet/dry and dry environments

humantouch™
Reduces external glass temperatures to human-friendly levels for public spaces

Factory sealed IP68 to 33' (10 m)

Marine-grade, 316 stainless steel housing

Available in RGBW and a selection of white color temperatures.
