Intense Beauty
Designed for the Long Run

The Vestalux V2 Luminaire from Lumascape goes to great lengths to deliver an intense lighting experience. Available in low- and line-voltage models, it allows you to install up to 225' (69 m) of luminaires on a single cable with a total circuit length of 500' (150 m). The innovative electrical design, combined with cylindrical or square diffusers, creates dazzling displays up to 2,400 lumens — from brilliant whites to vivid hues. For high-performance architectural lighting, the Vestalux V2 is engineered for excellence.
